

Dream Away

Giardina Tiffany

Away, away dream away
Away, away dream away
Away, away dream away
Away, away, away, away, away

I woke up and made a wish on a star
I wonder now if I'll go far
If dreams were made this way
Cause when you're 13 you can feel the weight of the world
so much more than other girls
It's hard to find your place

But if I wait too long, will I still hold on close to you?
And if I wait too long will I try?

I don't wanna wait too long, cause time will move on
and my heart says a dream's a dream away

It's now or then I'll know I'll make it
Then again, I hope to make it right
But some say it's just a waste of time
But when I look up to make that wish on a star
I could see it now that I'll go far and find a place for me

But if I wait too long, will I still hold on close to you?
And if I wait too long will I try?

I don't wanna wait too long, cause time will move on
(time will move on)
And my heart says a dream's a dream away
I don't wanna wait too long, for right to turn wrong
(right to turn wrong)
Cause a dream too can be dreamt away
(a dream's a dream away)

Away, away dream away
Away, away dream away
Away, away dream away
I know my dream's just a dream away
(repeat 2x)

I don't wanna wait too long, cause time will move on
And my heart says a dream's a dream away
I don't wanna wait too long, for right to turn wrong
Cause a dream too can be dreamt away

I don't wanna wait too long cause time will move on
And my heart says a dream's a dream away
