

# Summertime

Giardina Tiffany

I've got my headphones and my flip flops on  
My arms are in the air to my favorite song  
I've got my cute sun glasses and my cut off jeans  
School's out for summer and you know what that means

Last year I caught my first wave  
This year I could be that brave  
Can't believe it's graduation day

Summertime can't come faster  
Sunshine's what I'm after  
First kiss, near disaster  
Party time, nothing matters  
Life's just buried treasure  
Just one big adventure  
Waiting for me and my summertime {hey, hey, hey}

See that cute lifeguard  
Yeah, I know I'm a flirt  
Tell all my girlfriends  
'Back off cause I saw him first'  
He don't remember  
It was this time last year  
When he ignored me  
Wish I could disappear

But now he's looking back at me  
I wanna scream 'Hey girls just look at me!'  
Today is graduation day

Summertime can't come faster  
Sunshine's what I'm after  
First kiss, near disaster  
Party time, nothing matters  
Life's just buried treasure  
Just one big adventure  
Waiting for me and my summertime, summertime

Summertime can't come faster  
Sunshine's what I'm after  
First kiss, near disaster  
Party time, nothing matters

Summertime can't come faster  
Sunshine's what I'm after  
First kiss, near disaster  
Party time, nothing matters  
Life's just buried treasure  
Just one big adventure  
Waiting for me and my summertime

Summertime can't come faster  
Sunshine's what I'm after  
First kiss, near disaster  
Party time, nothing matters

Summertime can't come faster

Sunshine's what I'm after  
First kiss
