

# Are You Still In Love With Me

Tift Merritt

After everything I told you,  
After how I said it'd be,  
After all I did to hurt you,  
Are you still in love with me?

Are you still in love with me?  
Are you still in love with me?  
Without my kiss, are you lonely?  
Are you still in love with me?

When you walk a street of strangers,  
When you stop and look for free,  
When you think about tomorrow,  
Are you still in love with me?

Are you still in love with me?  
Are you still in love with me?  
Without my kiss, are you lonely?  
Are you still in love with me?

Is it just now that we are leaving, is it the edge of harder times  
That makes what never satisfied me look lovely and fine?

Does this mean that it's real?  
Does this that I'm blue  
I wake up late at night  
Think that I still love you.

Are you still in love with me?  
Are you still in love with me?  
Without my kiss, are you lonely?  
Are you still in love with me?
