## I Am Your Tambourine

My body was sleeping Sleep was a lie Grab hold of my body I will rise, rise, rise

My heart was heavy Hungry and tired Oh, but you're touch has made it Fly, fly, fly

I am your tambourine I am your tambourine Shake me with your love Shake me with your love Shake me with your love song

Rattle me darling Way down inside Fill me with rhythm So fine, fine, fine

I am your tambourine I am your tambourine Shake me with your love Shake me with your love Shake me with your love, tonight

I can't keep quiet Oh, I can't hide I want to shout in singing And shine, shine, shine

I am your tambourine I am your tambourine Shake me with your love Shake me with your love Shake me with your love, tonight

I am your tambourine I am your tambourine I am your tambourine

Shake it, shake it, shake it, shake it Tambourine, shake it, tambourine, shake it
