

Your Love Made A U-turn

Tift Merritt

Yesterday we had a good thing going
I loved the way our love was growing
Thought I'd found love and affection
When you turned your love in the other direction
Your love made a U-turn
Away from me
Your love made a U-turn
Left me standing in the street
How I'd wait all night long
Trying to see where did I go wrong
I can't see through tears in my eyes
Somebody please tell me why
His love made a U-turn
Away from me
His love made a U-turn
Left me standing in the street
Love, sweet love, look what you've done to me
Went away and left me standing in the street
You lift me high, then you let me down
You won't even try to turn your love around
Why did you make a U-turn?
Away from me
Why did you make a U-turn?
Leave me standing in the street
Everyday I tell myself
Why should I blame someone else
I'm still standing in a trance
Hoping there just might be a chance
You'll make another U-turn
Right back to me
Come on, make a U-turn
Right back to me
Come on, make a U-turn
Right back to me
Yeah, come on, make a U-turn
Well, come on, make a U-turn
Right back to me
Well, come on, make a U-turn
Right back to me
U-turn, can't you make a U-turn?
U-turn, can't you make a U-turn?
