

## American Nightmare

Tiger Army

Hot cherry on fire and it'll suck it down the spine  
I put an axe in my baby's head gonna end up doing time  
She looks so good in red  
American nightmare running scared  
Should of been hard to get,  
Should of hardly cared, should of let hold of her babe  
I had to split your head  
American nighmare running scared  
Oh headin' down the highway  
Sign has three inverted nines  
If the law don't get me the devil will but not without a fight  
This highway never fuckin' ends  
American nightmare running scared  
American nightmare running scared  
I'm headin' down the highway  
And i'm having murder in mind  
If the law don't get me the devil will but not without a fight  
This highway never fuckin' ends  
American nightmare running scared hey, american nightmare runni  
ng scared
