

Power Of Moonlite

Tiger Army

Riding along through the night
Things couldn't be farther from the night
Who made this world of misery?
I want no part of it- I think I'm gonna leave (that's when the)

The Power of Moonlight- Shines down on me and seeps into my soul

The Power of Moonlight-It calls to me from ages long ago
The Power of Moonlight- A haunting whisper
That I'll never grow old
Far away nighttime tides are calling to me...

(Reject the daylight/full moon tonite)

All the filth and all the dirt
The madness of this spinning world
Trapped down here, brought down and down and then-
Just like the moon and twilight I will rise again (that's right the)

The Power of Moonlight- Shines down on me and seeps into my soul

The Power of Moonlight-It calls to me from ages long ago
The Power of Moonlight- A haunting whisper
That I'll never grow old
Far away nighttime tides are calling to me...

(The moon's purity/Your power unto me)

And just like the moon...
Just like the moon...
Just like the moon...
I will rise again
Rise again
