

Coalitions

Tiger Lou

Fixate your fingers around me
Focus and please keep your voice down
Hungry for air can you see my eyes
Coming out of their sockets

I will not blink
Nor move an inch

These are the circles in which
I have been walking 500 laps every second
These are the vessels in which
I have been crashing 500 times every second

I will not blink
Nor move an inch
No I will not blink
Nor move an inch

Raise your head high, retaliate
The coalition is on the take
Roll your sleeves up, emancipate
Try to process just what's at stake

Raise your head high, retaliate
The coalition is on the take
Roll your sleeves up, emancipate
Try to process just what's at stake

Roll your sleeves up and raise your head high
