

## Nervous Kids

Tigers Jaw

Thought I was lying  
I wasn't worth the time  
But I learned more about you  
just from the look in your eyes  
And I was blind to  
How you destroyed me  
You have a talent  
But you know that

Traitors are out now  
Everything's darker  
Your problems look so big from the ground  
Raise them up for all to see  
Shout them out from top of twin peaks

We're just nervous kids  
We're just

Thought I was lying  
I wasn't worth the time  
We're just nervous kids  
We're just over it  
We're just nervous kids  
We're just over it
