

# Make Me Bleed

Tigertailz

I hear you calling  
In the beating of the rain  
Unholy nightingale  
In twilight serenade  
Stolen by the shadowz  
To immortal afterlife  
Take me away with you tonight

We could be together  
For the rest of our lives  
But only you can set me free  
We could live forever  
Never saying goodbye  
You know, you everything I need

Come on make me feel it  
Make me bleed

Save me from this loneliness  
This endless mortal pain  
Show me eternity  
Let love receive the blame  
Feast upon my heart and soul  
Drink deep this crimson rain  
So we can be together once again

We could be together  
For the rest of our lives  
But only you can set me free  
We could live forever  
Never saying goodbye  
You know, you everything I need

Come on make me feel it  
Make me bleed
