

Summer Nightfalls

Tila Tequila

All our friends keep wondering but they don't know that....
You and I have secret lives yet they don't realize.
When they aren't looking, we keep on kissing, the fun we're having...Hiding our love from the world is driving me insane..

Summer nightfalls with endless dreams....
of you and I together always.
Taking trips and leaving town...
Go to a place where there's no one around...there's no one around...

I thank you for all the times when you made me smile.
No matter what happens now you will always be my pal.
We run around and cause a ruckus...we can't stop laughing.
These memories will fill our lives with happiness...

Summer nightfalls with endless dreams....
of you and I together always.
Taking trips and leaving town...
Go to a place where there's no one around...there's no one around...

I thank you for all the times when you made me smile...no matter what happens now you will always be my pal....

Summer nightfalls with endless dreams....
of you and I together always.
Taking trips and leaving town...
Go to a place where there's no one around...there's no one around...
