

# I Always Knew

Tilly and the Wall

I've lived my life  
Inside daydreams, lies  
Imaginary friends  
They always knew,  
Knew one day I'd leave,  
Leave for good

I'll give away this girl  
Who tried to make you fall in love  
Uh-huh  
I'll give her to,  
To you  
So keep her close,  
Close to you

Said you won't forget about her  
How she loved you so,  
Long ago  
Once upon a time

Now she has grown,  
Grown up  
And you can't take,  
Take it back  
A lie, a lie will change my life  
And won't ever go back to that

I will stay to,  
to this belief  
That we changed for the best through this

Separate the ones who know you  
From the whole couldn't ever see  
You for all that you are

And deep down I always knew  
And the times I've thought that I've loved you  
It wasn't just an easy answer,  
It was make believe

But I still believe  
That this heart,  
Heart will learn to love.
