

# Not For Nothing

Tim Finn

I was ready for you  
I'll never know how to thank you  
Everything that you do  
Is setting me free

All the wisdom in the world  
Couldn't penetrate or ring true  
If not for my little girl  
It's not for nothing that I

I was waiting for you  
Behind a high wall of poses  
Now I look at life through  
Your innocent eyes

Teach me how to be a child  
You can slip through my defenses  
Inhibition running wild  
And mass confusion in my senses

Nearer, I really mean sincerer  
Open your heart to me  
I just wanted to let you know  
That I want to be nearer

Let's make a start together  
I couldn't let you go  
I just wanted to let you know

The nearer you are  
The clearer I see  
The clearer I see  
That the nearer you are  
That the nearer you are  
The happier I will be

I was ready for you  
I'll never know how to thank you  
Everything that you do  
Is setting me free

All the wisdom in the world  
Couldn't penetrate or ring true  
If not for my little girl  
It's not for nothing that I  
It's not for nothing that I  
Love you, want you, need you
