Well its been rainin' on and on
Ever since you've been gone
Those dark clouds keep rollin' in
And every time I think I might catch myself a glimpse of sunlig
ht
The bottom falls out again
Well I can barely keep afloat
I'm up the creek without a boat
And I've been adriftin' Heaven knows how long
'Cause it's been rainin' 40 days and 40 nights since you've bee
n gone

Hey, well drip drip goes the sound of the rain
The four winds are blowin' like a hurricane
My friends said I should settle for any port in a storm
I'd rather be inside your lovin' arms
Safe and warm
Girl it's been a long time since I've seen sunshine
Baby won't you come back home
'Cause it's been rainin' 40 days and 40 night since you've been gone

Aw listen to me now I keep starin' out the window Searchin' for a rainbow To signal that the storm will end Hey, 'cause I know that the rain'll keep pourin' on the pane Until my saint comes back marchin' in Oh, girl its been a long time since I've seen sunshine Baby won't you come back home 'Cause it's been rainin' 40 days and 40 nights since you've bee n gone Hey, well drip drip goes the sound of the rain The four winds are blowin' like a hurricane My friends said I should settle for any port in a storm I'd rather be inside your lovin' arms Safe and warm Girl it's been a long time since I've seen sunshine Baby won't you come back home 'Cause its been rainin' 40 days and 40 night since you've been Yeah its been rainin' 40 days and 40 nights since you've been g one
