

## A Place in the Sun

Tim McGraw

Long ago, far away  
I felt your lovin' glow upon my face  
Was it a dream or just a promise made  
What is my destiny

Someday I'll find a way to shine  
Leave all these rainy days behind  
I know there's got to be  
Some place warm and bright for me  
I'm running out of places I can run  
Looking for a place in the sun

Darkness hangs overhead  
Close to the point where angels fear to tread  
I close my eyes and think of you instead  
And pray you'll be here soon

Someday I'll find a way to shine  
Leave all these rainy days behind  
I know there's got to be  
Some place warm and bright for me  
I'm running out of places I can run  
Looking for a place in the sun

Sometimes it feels like this whole world's against me  
And every beaten path  
Is just another winding road that tempts me  
Far from you and all that's true  
I've got to find my way again

Someday I'll find a way to shine  
Leave all these rainy days behind  
I know there's got to be  
Some place warm and bright for me  
I'm running out of places I can run  
Looking for a place in the sun

Yeah I'm running out of places I can run  
Looking for a place in the sun  
Oh, won't you shine down on me Sunshine?
