

I Just Love You

Tim McGraw

Lonely, yeah thats the word
I leave my heart when I leave her
Days go on like my lesson and thats not go good
One evening Im on the road, at the wordl away from home
I thought she as sleeping in the ...
I said darling its late, it; s everything ok
And the silence took over the road
Then she said
I, I just love you
Dont know way I just do
When are you coming home?
Babe Im coming home soon
And I just love you too
Lonely let me for a while she set me free
I close mty eyes and I dream of her
She wrapped in my arm her head on my heart
And so I beliebe she whispear the words
I, I just love you
Dont know way I just do
When are you coming home?
Babe Im coming home soon
And I just love you too
Ooh Ill never stop be as amaze
That my forty year old girl knows exaclty what to say
Yeah
I, I just love you
Dont know way I just do
When are you coming home?
Babe Im coming home soon
And I just love you too
And I just love you too
