

# Like We Never Loved at All

Tim McGraw

You never looked so good as you did last night  
Underneath the city lights  
There walking with your friend, laughing at the moon  
I swear you looked right through me

But I'm still livin' with your goodbye  
And you're just goin' on with your life

How can you just walk on by without one tear in your eye?  
Don't you have the slightest feelings left for me?  
Maybe that's just your way of dealing with the pain  
Forgetting everything between our rise and fall  
Like we never loved at all

You, I hear you're doin' fine  
Seems like you're doin' well as far as I can tell  
Time is leaving us behind  
Another week has passed and still I haven't laughed yet

So tell me what your secret is baby, yeah?  
To letting go, letting go like you did, like you did

How can you just walk on by without one tear in your eye?  
Don't you have the slightest feelings left for me?  
Maybe that's just your way of dealing with the pain  
Forgetting everything between our rise and fall  
Like we never loved at all

Did you forget the magic?  
Did you forget the passion?  
And did you ever miss me?  
Ever long to kiss me?

Maybe that's just your way of dealing with the pain  
Forgetting everything between our rise and fall  
Like we never loved at all
