

# Nine Lives

Tim McGraw

[Tim McGraw]

Is your luck enough  
Is your touch enough  
C'mon girl  
Can you keep it up  
Is your bluff enough

[Def Leppard]

Are you tough enough  
Is your stuff enough  
Can you start it up  
Are you sharp enough  
Let it roll, let em go, let em fly  
Took a chance on a chance  
But the aces were high  
Get it on, give it up, give it in  
You stole the wages of sin  
Got to be in it to win

[Chorus]

Nine lives, nine times to die  
I've been bitten once  
But I won't be twice shy  
Nine lives, nine times to die  
Come on and show me your hand  
Cause it's your time to cry

Have you lost your touch  
Are the stakes too much  
Did you spin the wheel  
And could you close a deal.  
Yeah, yeah!  
Let it roll, let em go, give em style  
Took a chance on a chance  
But the deuces were wild  
Get it on, give it up, give it in  
You stole the wages of sin  
Cause you're in it to win

[Chorus]

Nine lives, nine times to die  
I've been bitten once  
But I won't be twice shy  
Nine lives, nine times to die  
Come on and show me your hand  
Cause it's your turn to cry

Hey!

Let it roll, let em go, let em fly  
Took a chance on a chance  
But the aces were high  
Get it on, give it up, give it in  
You stole the wages of sin  
Got to be in it to win

[Chorus]

Nine lives, nine times to die  
I've been bitten once  
But I won't be twice shy  
Nine lives, nine times to die  
Come on and show me your hand  
Cause it's your turn to cry

Nine lives, nine times to die  
I've been bitten once  
But I won't be shy twice  
Nine lives, nine times to die  
It's Russian roulette  
With every roll of your dice

And nine lives is all we're gonna get...  
I said all we're gonna get yeah...  
Nine lives, nine times to die  
You've just bitten less than your nine lives
