

# Seventeen

Tim McGraw

Backseat of her daddy's car  
I was trying not to go too far  
Kept thinking about the words the preacherman said  
Lightnin' flashed across the sky  
I saw love in a young girl's eyes  
And that's a look you never forget

Seventeen only comes once in a lifetime  
Don't it just fly by wild and free  
Goin any way the wind blew, baby

Seventeen, livin on crazy dreams

Rock and roll and faded blue jeans  
And standing on the edge of everything  
Seventeen

Legs hangin' off the Bayou Bridge  
Feedin' fish potato chips  
And talkin' about the mysteries of the universe  
Yeah, the world was somewhere else  
We had the Summer all to ourselves  
And the stars went off like fireworks

Seventeen only comes once in a lifetime  
Don't it just fly by wild and free  
Goin any way the wind blew, baby

Seventeen, livin on crazy dreams

Rock and roll and faded blue jeans  
And standing on the edge of everything  
Seventeen

Seventeen only comes once in a lifetime  
Don't it just fly by wild and free  
Goin any way the wind blew, baby

Seventeen, livin on crazy dreams

Rock and roll and faded blue jeans  
And standing on the edge of everything  
Seventeen
