

# What You're Lookin' For

Tim McGraw

Baby, go on and do what you gotta do  
I'll never be the man that you want me too  
Just keep me somewhere in your young, wild memory  
And whenever you finally get to  
Wherever your heart leads

I hope you find someone to love  
And every dream that you dream of  
I'm not the one you need and you know it  
You're gonna leave, so baby, get going  
I won't try to stop you anymore  
Yea somewhere on the other side of that front door  
I hope you find what you're looking for

This has been coming down for a long, long time  
I ain't gonna change and i can't change your mind  
Just look back on me like a sun-soaked yesterday  
And wherever your life leads you  
Somewhere along the way

I hope you find someone to love  
And every dream that you dream of  
I'm not the one you need and you know it  
You're gonna leave, so baby, get going  
I won't try to stop you anymore  
Yea somewhere on the other side of that front door  
I hope you find what you're looking for

I don't wanna slow you down  
Don't wanna hold you down  
You're better off without me  
I just wanna see you smile  
Girl i miss your smile  
Wanna see you happy

I hope you find someone to love  
And every dream that you dream of  
I'm not the one you need and you know it  
You're gonna leave, so baby, get going  
I won't try to stop you anymore  
Yea somewhere on the other side of that front door  
I hope you find what you're looking for

Baby, go on and do what you gotta do  
I'll never be the man that you want me too
