

Make It Last

Tim McMorris

I want to stay here with you
Under sunny skies, lookin in your big brown eyes
Time goes by but my heart stays true
And every smile you give, your love it shine right through
And in this moment

I'll make it last, make it last, I'll take my time, and make it last
And as the present becomes the past, I'll do my best to make it last
I'll make it last, make it last, whatever it takes I'll make it last
And though the future is coming fast, I'll fight it off to make this last
Everybody seems to think that all good things come to an end
But I won't fall for that, oh no, forever you will be my friend
And no one else can make feel the way you without effort do
And you are mine, for now and always, and always know that I love you

And so I'll make it last, make it last, I'll take my time, and make it last
And as the present becomes the past, I'll do my best to make it last
I'll make it last, make it last, whatever it takes I'll make it last
And though the future is coming fast, I'll fight it off to make this last
