

# She's Fire Walking

Tim McMorris

With a stride that says I'm going places  
She's traveling fast  
And I can tell from how she sways  
She's overcome her past

Yeah shes walking with a passion  
Moving with desire  
She's fights for what she wants  
she's going up, she's going higher

Look into her face, determination in her eyes  
She won't give up or quit, or fall for little fashioned lies  
Filled with awesome expectation  
This girls a fascination  
And nothing in her way  
Will keep her from her destination

Cause she's fire walking, she's fire walking  
When it's hot she keeps on moving  
Through the heat, keeps on improving  
Yeah she's fire walking, she's fire walking  
To be free

Every time she falls  
You'll see her right back up again  
Nothing keeps her down  
If you count her out, you better count again

Even with her pretty face, she'll put you in your place  
Cause she is on a mission, move aside and give her space

Fists high is the air, victorious, she overcomes  
From the hills, down to the valleys, from the top down to the slums

Anywhere she's ever been, she's always there to win  
And if you find her quiet, then look out she's turned within

Because she's fire walking, she's fire walking  
When it's hot she keeps on moving  
Through the heat, keeps on improving

Yeah she's fire walking, she's fire walking  
Through the flames, you'll see her rise  
Right through the smoke, don't be surprised

Because she's fire walking, she's fire walking  
But it cannot touch or burn her  
Doesn't one small bit concern her  
Yeah she's fire walking, she's fire walking  
To be free
