

Simple Little Things Of Life

Tim McMorris

I, I, I
I am pleased, pleased by Just the simple little things of
The little things of life
And I promise if you, you, you
Take the, time, time, time
You won't be looking for to long
Before you find this little secret of mine

It's a hello from a friend
Or a smile from a child
Or the way someone will greet you
When you've, been gone a while
It's a kiss from your lover
Or a hug from your mother
Just the smell of fresh air
Or when help, comes from another
It is generosity
Or just a kind philosophy
Encouragement to keep on going
When enthusiasm slowin
It's a walk into the forest
Or a swim into the sea
I don't need it complicated
It's the simple things for me

The world turns fast
But I will slow right down
So that I do not miss the wonderful
The beautiful things that are around, round round
There is so much to see
Yeah, so much to give
So have a hope for the future
And expect good things will come
As you live

It's about a hello from a friend
Or a smile from a child
Or the way someone will greet you
When you've, been gone a while
It's a kiss from your lover
Or a hug from your mother
Just the smell of fresh air
Or when help, comes from another
It is generosity
Or just a kind philosophy
Encouragement to keep on going
When enthusiasm slowin
It's a walk into the forest
Or a swim into the sea
I don't need it complicated
It's the simple things for me
