

I'm Not Gonna Forget You

Tim O'Brien

Last night on the mountain, I gave my horn a blow
Echos started comin' back from long, long ago
A foggy cloud was risen, I felt you all around
In the air that I was breathin', you sang in every sound

I'm not gonna forget you,
I'm always gonna know your name
I'll be feelin' you in my fingers
And lovin' you just the same

You led me through the doorway of an old log cabin there
I ran my hands along the wall, sat down on the fallen stairs
That place was every place we went
The wind was every wind
I cried a peaceful river, cause I know you're still my friend

I guess sometimes you hide out
But you'll never leave for good
I didn't have to see you to know right where you stood
You're in these words I'm saying, you're in this melody
You are this guitar strummin'
You're the rhythm and harmony
