

# One Drop Of Rain

Tim O'Brien

One rain drop fallin' down on  
Some hilltop all alone it  
Finds another and together  
They roll on down

One mornin' then another  
Discovering one another  
Exploring, addin' on  
To the love we found

And the river is wide  
And our love, it runs deep  
Comin' down from above  
Again and again

What started so small  
Now it's all I can see  
Like a river growin' out  
Of one drop of rain

One footstep, no hurryin'  
And real easy no worryin'  
Love's labor slowly turnin'  
Into wine

Each day brings your sympathy  
Like water rushin' over me  
It heals me, and it's as if  
You were always mine

And the river is wide  
And our love, it runs deep  
Comin' down from above  
Again and again

What started so small  
Now it's all I can see  
Like a river growin' out  
Of one drop of rain

What started so small  
Now it's all I can see  
Like a river growin' out  
Of one drop of rain
