

# Out In The Darkness

Tim O'Brien

Out in the darkness, out in the night  
I see you standing there  
I want to guide you into the light  
Show you I really care

It's hard to show the way I feel  
On this side of the line  
How can I show you my love is real  
If you can't see the sign

A little bit harder, we're gonna have to try  
A little bit farther, keep walking side by side  
A little bit stronger, we're gonna have to be  
A little bit longer, together we hold the key

Why do you hold back when I phone  
You never come around  
And when I'm with you I feel so alone  
You never make a sound

A little bit harder, we're gonna have to try  
A little bit farther, keep walking side by side  
A little bit stronger, we're gonna have to be  
A little bit longer, together we hold the key

Out in the darkness, out in the night  
I see you standing there  
I want to guide you into the light  
Show you I really care
