

# Hot Dreams

Timber Timbre

I wanna dance  
I wanna dance  
I wanna dance  
With a black woman

I wanna still  
I wanna still  
I wanna still  
My mind

And I want a chance  
And I want a chance  
I want another chance

To distill  
To distill  
That time

And I wanna write  
And I wanna write  
And I wanna write  
To someone so true

I wanna wake  
I wanna wake  
I wanna wake  
From hot dreams, hot dreams of you

Oh, hot dreams

I wanna rise  
I wanna rise  
I wanna rise  
Up beside you.

I want to be  
I want to be  
I want to be  
A champion in your eyes

I wanna follow through,  
Follow through on all my promises and threats to you babe

Hot streams  
Hot streams will  
Fork and divide  
Fork and divide

I wanna take  
I wanna take  
I wanna take  
Take all of your air

I wanna find  
I wanna find  
I wanna find  
Another daydream, another nightmare

I wanna lie  
I wanna lie  
I wanna lie  
Lie me down in your stream

I wanna wake  
I wanna wake  
I wanna wake from hot dreams

I wanna wake from hot dreams of you babe  
I wanna wake from hot dreams of you babe
