

## Until the Night is Over

Timber Timbre

There is a house in New Orleans  
Where you woke from a coma and they bit your cheek  
And they cleaned you out when you went to sleep

Oh, I just wanna change your mind  
I just wanna change your mind  
And it might become right away  
It might become till the day I'm done

And I saw it as the house caught fire  
And I saw it when the thief got brave  
It's like a night, night, crawler, crawlin' out in the  
yard  
And it's comin' over me in waves

But you're haunted by the morning sun  
You keep digging till the night is over

I ain't no doctor, babe  
I ain't no doctor, son  
But I'll cool your fever till the doctor comes  
It's a miracle, babe, but it ain't no fun

I just wanna change your mind  
I just wanna change your mind  
It might become right away  
It might become till the day I'm done

And I saw it as the house caught fire  
And I saw it when the thief got brave  
It's like a night, night, crawler, crawlin' out in the  
yard  
And it's comin' over me in waves

But it's not here now  
It's the chance of it I hate  
It's a hundred thousand miles off  
Comin' closer everyday
