Me And You

Time Again

I started it out in the east bay,
Headed down to the sandy way,
Now I'm up here in Hollywood.
I got my bags, I don't know where I'm headed,
But I know I can't do it alone.
I need you by my side,
Come on now it's time to ride,
We're gonna have the time of our life

Me and you, we don't know where we're going
Me and you we're never going back
Me and you we don't know where we're going
Me and you... It's you and me

We got five cigarettes, five hundred miles,
Two road maps and only twenty dollars for food.
We got two set of clothes,
Our two shoes and nothing else,
But two guitars to call our own.
I don't care what goes down because nothing can bring us down,
We're gonna have the time of our life
