

# Stand by Me

Timeflies

When the night has come  
And the land is dark  
And the moon  
Is the only light we see  
No, I won't be afraid  
Oh, I won't be afraid  
Just as long as you stand  
Stand by me

Don't push me, don't tempt me  
I'm runnin' on runnin' on empty  
It's a long way down from here  
'Cause I'm right where you left me,  
With you lookin' so lookin' so sexy  
You've got everything left to fear  
I know you're dangerous  
But baby so am I  
You came to hang with us  
I know you wanna ride  
Because you look like  
You might do this all the time  
I been a long way  
From the other side  
You might have thought I  
Was just another guy  
But it looks like you might  
Just have lost your mind

Can't stop now, but I need to  
I'm feelin' so feelin' so evil  
I just can't slow me down  
I need just one redo  
Life's lookin' like lookin' like a preview  
Of what might happen now  
'Cause I can't seem to fight  
The temptations  
I been working too hard  
To stay patient  
And it feels like  
I've got nowhere left to run  
Another reason that I have to go  
For me to walk out  
'Cause I been punch drunk  
Straight knock out  
Where will you be when everything is gone?

Speed up the countdown  
Ready to blast off  
First in, last off  
Rock this shit till' the track's off  
Taught by the best ever  
So it's wax on wax off  
I'm in my phone booth  
Superhero, mask off  
Go on tell the fam' hi

Are you with me or on stand by?  
My clock gave me these wings  
I promise you that we can fly  
We can go, no plans though  
Nah, ain't nothin' we can't try  
While you and I ride this roller coaster  
Lemme see you scream  
With your hands high
