

# Start It Up Again

Timeflies

Speech  
I'm tryna get weird tonight

It's like  
Preach  
That's why we're here tonight

Get turned up  
Let's go now  
We showed up  
To throw down

At least  
We could get a few beers tonight

Let's toast  
Everybody gonna raise it up

Get close  
That's the reason we're stayin' up

So roll up get faded  
And you know we'll make it the most  
Lemme show you how to change it up like

All you need  
Is to know that if you follow me  
When you start thinkin' that the night would end  
Then we could go and start it up again  
We could start it up again

When you think this night is over  
It's feeling like the end  
When the daylight's getting closer  
We could start it up again

We don't need to find a reason  
We don't need to play pretend  
We could take what we believe in  
And we could start it up again

Okay  
Now this the shit that I'm talkin' about

It's Late  
But ain't no way that we clockin' out

It's time to let go now  
We won't ever slow down

Just stay  
We're goin' in 'til they lock us out

And all you need  
Is to know that if you follow me  
When you start thinkin' that the night would end  
Then we could go and start it up again

We could start it up again

When you think this night is over  
It's feeling like the end  
When the daylight's getting closer  
We could start it up again

We don't need to find a reason  
We don't need to play pretend  
We could take what we believe in  
And we could start it up again

I'll show you how to do it in the nighttime  
It was lookin' like a special on lifetime  
Now that I'm here  
It's like Times Square  
Just had to phone a friend and use a life line

And that's rooftop, dance floor, basement, back room  
All night goin' hard as fuck

And I hope you don't think you'll get back soon  
Nah, we're just startin' up

When you think this night is over  
It's feeling like the end  
When the daylight's getting closer  
We could start it up again

We don't need to find a reason  
We don't need to play pretend  
We could take what we believe in  
And we could start it up again
