

Bring Me Love

Tina Arena

Go ahead like all the times before
We've tried to change this
Rearrange this
Leave unsaid the thousand words
We both deserve to explain
The refrain

So before we leave again
We lie out on the line
And lose ourselves just for a while

I hear your heart beat next to mine
Close my eyes and feel the fire
Take me down
Don't make a sound
Come undone
And bring me love
Across the rivers and the roads
Bittersweet like no one knows
Take me down don't make a sound
Come undone and bring me love

Break apart
The split between the midnight screens and phone calls
We won't fall
Stop and start remembering the smallest thing that we hold
In our hearts young and old

So before we play pretend
We lie out on the line
And lose ourselves just for a while and

I hear your heart beat next to mine
Close my eyes and feel the fire
Take me down
Don't make a sound
Come undone
And bring me love
Across the rivers and the roads
Bittersweet like no one knows
Take me down don't make a sound
Come undone and bring me love

Bring me love
Bring me love
Bring me love
Bring me love
Bring me love
Yeah

I hear your heart beat next to mine
Close my eyes and feel the fire
Take me down
Don't make a sound
Come undone
And bring me love
Across the rivers and the roads

Bittersweet like no one knows
Take me down don't make a sound
Come undone and bring me love
Bring me love
Bring me love
Bring me love
Bring me love
Bring me love
Ooooh
Bring me love
