

# Don't Hide

Tina Arena

You learn when you're on your own  
In this maddening world we all live in  
You grow when you're all alone  
And you pay the price for just believing  
You know that life will teach you everything, everything  
No wrong no right  
Embracing everything, everything

So don't hide  
Don't hide

If now is a lonely place  
Mr Darkness evens out the scales  
All the significance  
Taking any changes faced  
You know that life won't spare you anything, anything  
It's up to you  
Take what you want from it, want from it

So don't hide, just fly  
Don't hide, just fly

Just fly

So much more you'll know  
When you're in control  
Easier to let go

So don't hide  
When you are in doubt  
Just you leave it out  
Don't hide  
This is how life goes

Don't hide, don't hide, don't hide  
Don't hide, don't hide, just fly

So don't hide  
Don't hide, don't hide, just fly  
Don't hide  
This is how life goes  
This is how life goes  
This is how life goes

If now is a lonely place  
If now is a lonely place

Don't hide, don't hide, just fly

This is how life goes
