

# Don't Look Back

Tina Arena

Home clinging to a rolling stone  
The greatest love I've ever known  
Left me standing at the side of the road  
Hope keeps telling me that I'm not alone  
And it shouldn't be a felony to want to hold on  
This love there's got to be another way to move on

I refuse to live an ordinary life  
I refuse to live an ordinary life

Don't look back don't you ever do that don't look back  
Don't look back don't you ever do that don't look back  
(Don't look back)  
Don't look back don't you ever do that don't look back  
Don't look back don't you ever do that don't look back  
(I'm never looking back)

Hope when stranded on the side of the road wondering how the story unfolds  
it was the only way to get to the gold  
No ones telling me it's time to go home  
I'm alone not lonely out on my own  
This love that had control of me I've finally let go

I refuse to live an ordinary life  
I refuse to live an ordinary life

Don't look back don't you ever do that don't look back  
Don't look back don't you ever do that don't look back  
(Don't look back)  
Don't look back don't you ever do that don't look back  
(Don't look back)  
Don't look back don't you ever do that don't look back  
(I'm never looking back)  
(Don't look back)

Don't look back don't you ever do that don't look back  
(Don't look back)

Don't look back don't you ever do that don't look back  
(I'm never looking back)  
Oh oh oh  
I'm never looking back  
Oh oh oh  
I'm never looking back  
Don't look back don't you ever do that don't look back  
(I'm never looking back) don't look back don't you ever do that don't  
look back  
(Don't look back)  
Don't look back don't you ever do that don't look back  
(I'm never looking back)
