

# Drunk On Love

Tina Arena

Does it show?  
Do I have to wait for you?  
I don't know  
What do I have to lose apart from you?

A certain spark  
I know I could light for you  
Better start  
Lead and I'll follow you

I want to get drunk on love (drunk on love)  
Forget the conversation  
Every little drop of love (drop of love)  
Lifts me up again  
I want to get drunk on love (drunk on love)  
Whatever implications (Implications)  
Come with love (implications)  
Drunk on love

Carry me  
I feel that I'm about to fall  
Where I land  
I don't care at all

I want to get drunk on love (drunk on love)  
Forget the conversation  
Every little drop of love (drop of love)  
Lifts me up again

I want to get drunk on love (drunk on love)  
Whatever implications (Implications)  
Come with love (implications)  
Drunk on love  
Drunk on love  
Drunk on love  
Drunk on love  
(I want to get, I want to get, I want to get)

I want to get drunk on love (drunk on love)  
Take away my pain  
I want to get drunk on love (drunk on love)  
Whatever implications (Implications)  
Come with love (implications)  
Drunk on love

Baby, baby, take away my pain  
I want to get drunk on love  
Just get me drunk on love
