

Lie in It

Tina Arena

In a sea of good intentions
We are the last to know
Looking back on our reflections
We were sinking slow
A bitter pill to swallow
to reap what you saw
Hiding from tomorrow
Is in vein I know

I see this light (I see this light)
A paper kite
Oh, if you let it go before you build it right
You'll never see it fly

You made your bed now lie in it
You made your bed now lie in it
Priceless but you've broken it
So lie in it

Are we just free-falling
With no parachute
And when the past came calling
You didn't cut it loose

I see this light (I see this light)
A paper kite
Oh, if you let it go before you build it right
You'll never see it fly

You made your bed now lie in it
You made your bed now lie in it
Priceless but you've broken it
So lie in it

You made your bed now lie in it
You made your bed now lie in it
Priceless but you've broken it
So lie in it
