

Love Rocks

Tina Charles

Love rocks my baby and me
Love is the answer we got the key
It's like the motion of an ocean wave
Love rocks me from cradle to grave
Love rocks yeah love rocks
I wanna stay here with you
You wanna stay here with me
You got the music in you
Everybody can see
Money isn't everything
Happiness it seldom brings

Love rocks my baby and me
Love is the answer we got the key
It's like the motion on an ocean sea
Love rocks me from cradle to grave
Love rocks yeah love rocks
Under a thousand stars
Oh what a night for love
We'll sit and watch the world
Look at the moon above
What a way to spent our days
I don't care what people say
