

Mines

Tina Dico

We sealed of on a promise when our love was so new
That I'll never change neither would you
I've been arm with lots of nature
We had it written hard in stone
To come back on our biggest fear
That a vending at what belong

And it's stays, yeah is burns when it ends when the bubble burn

And it makes no sense to speak these words
I loved you but I don't love you anymore

All these miles in our landscapes
About to go off sometimes
Time will change the way we are
It just might just change our mines

And it's stays, yeah is burns when it ends when the bubble burn

And it makes no sense to speak these words
I loved you but I don't love you anymore

And it's stays, yes is burns when it ends when the bubble burn
And it makes no sense to speak these words

And it's stays, yeah is burns when it ends when the bubble burn

And it makes no sense to speak these words
I loved you but I don't love you anymore
