

# Open Wide

Tina Dico

Come and take my hand  
It's been so long  
Since tender words last fell  
From our hard tongues  
Tell me, tell me now  
Where we go wrong  
Tell me there's a way if we press on

And keep our arms open wide  
Don't say no to anyone  
But keep our hearts safe inside  
Don't let go to anyone  
And raise above the chaos of love

Come and hold my hand  
You look confused  
You give your best  
And end up feeling used  
Tell me why you struggle like you do  
To draw the line between the world and you

Just keep your arms open wide  
Don't say no to anyone  
But keep your heart safe inside  
Don't let go to anyone  
And keep your heart safe from harm  
Safe and warm in your hand  
And raise above the trials of love

Come and take my hand  
It's been so long  
Since tender words last fell  
From our hard tongues

We'll keep our arms open wide  
Don't say no to anyone  
But keep our hearts safe inside  
Don't let go to anyone  
Yeah, keep our arms open wide  
Don't say no to anyone  
But keep our blood safe inside  
Not on show for anyone  
And raise above the chaos of love  
Of love
