Nineteen eighty four

Someday they won't let you, now you must agree  
The times they are a telling and the changing isn't free  
They read it in the tea leaves and the tracks are on TV  
Beware the savage jaw in nineteen eighty four

They'll split your pretty cranium and fill it full of air  
They'll tell you that you're eighty and really you won't care  
You'll be shooting up on everything, tomorrow's never there  
Beware the savage jaw in nineteen eighty four

(Come see, come see, remember me)  
I played in an all night movie role  
Yeah you said it would last but I guess we've enrolled  
In nineteen eighty four  
(Who could ask for more)  
Nineteen eighty four  
(Who could ask for more)

I'm looking for a vehicle, I'm looking for a ride  
I'm looking for a party, I'm looking for a side  
I'm looking for a treason that I knew in sixty-five  
Beware the savage jaw in nineteen eighty four

(Come see, come see, remember me)  
I played in an all night movie role  
Yeah you said it would last but I guess we've enrolled  
In Nineteen eighty four  
(Who could ask for more)  
Nineteen eighty four  
(Who could ask for more)

Nineteen eighty four  
Nineteen eighty four
