

# 1 For Me

Tinashe

I can feel in the air, that there's a freak in here  
You know what to do baby if its you  
Come on

Someone out there is the one for me  
So how will I know you're there, I've already waited  
Are you the one baby? Oh  
Someone you there is the one for me  
Waiting on the day  
That you come for me baby  
The one for me  
The one for me

Typical me deceptive dreaming  
Of a real kind of love  
Not just somebody to talk to to  
Am I so wrong for trustin' in fate so long  
Dont want to end up along  
? so good  
Make you feel better, make you ?

Someone out there is the one for me  
So how will I know you're there, I've already waited  
Are you the one baby? Oh  
Someone you there is the one for me  
Waiting on the day  
That you come for me baby  
The one for me  
The one for me

My heart tells me where gonna make  
I promise, you all i need  
Tell everyone that I'm your lady  
I promise you all i need oh yeah  
Night after night, I go to sleep waiting for  
Someone to walk through the door  
Somebody specially is gonna be mine  
Meeting is only a matter of time  
Loving is only  
Touching is only  
Oh  
I can feel it in my soul this can't be right  
Show me what I been mission all along

Someone out there is the one for me  
So how will I know you're there, I've already waited  
Are you the one baby? Oh  
Someone you there is the one for me  
Waiting on the day  
That you come for me baby  
The one for me  
The one for me
