

# Can't Say No

Tinashe

Lift me up, fuck being afraid.  
Fuck it, have your way.  
Give me more, I need a bigger dose...  
ceiling's on my toes

Rhythm with each other  
the moral of my needs.

Movin slow, what'd you do to me?  
Someone answer me!  
Movin slow, what'd you do to me?

Someone answer me  
Why I can't keep you out of my mind  
'Got me feeling so  
High when I look in your eyes  
but the biggest thing I really gotta know  
All of a sudden why I can't say NO to you and not a part of me  
wants to.

I was fine a little bit ago  
Could've had control  
put my heart in a bottle with a note  
set that shit afloat.

but it only drifted slower and further out to sea  
Moving slow, what'd you do to me?

Someone answer me  
Why I can't keep you out of my mind  
'Got me feeling so  
High when I look in your eyes  
but the biggest thing I really gotta know  
All of a sudden why I can't say NO to you...  
...and not a part of me wants to.

Boy I'm what you're missing in your life  
I already read the words behind your eyes.  
Someone answer me

Why I can't keep you out of my mind  
'Got me feeling so  
High when I look in your eyes  
but the biggest thing I really gotta know  
All of a sudden why I can't say NO to you and not a part of me  
wants to.
