

Every Single Day

Tinashe

Hold on, Calm down
I know you wanna let it out
Not here, not now
Cause he's in your out
I know you wanna leg it out
But don't leg it out

Now go on and say hi
But remember not to let it out
She ain't yours now
And he looks so proud
You definitely get the picture now
Just let it out.

I been trying so long
I've tried my best to move on
I know you said to be strong
But my heart won't let you go
Cause I just keep on wandering
I just keep on wandering
If you'll have me back

Hold on, calm down
She won't let me let it out
No way, no how
She screams me down
Got everybody looking round, they're looking round

I tried to explain to her
That we could go back to the way we were
But she turns me down
And starts to walk away
So, I try to reach out for her
But she turns me down again
And now the tears are out

I been trying so long
I've tried my best to move on
I know you said to be strong
But my heart won't let you go
Cause I just keep on wandering how
I sleep every single day
