

I'm Selfish

Tinashe

Hit me hard with the lips on me
Pull me so off guard feeling like music
And my friends are... for your skin
Ohh

Felt so deep
Everybody noted this
Though I try the reason
Baby your arm, baby you...

Ladies seem don't matchin why I think of love is cheat
And been question my perception everything is rearranged
And I try to bite it I don't wanna put you through no pain
When I tell you that I need a man again

Yes, I'm selfish, I'm selfish
Can't help it with the party
Won't be here forever
Come get me down forever

Hit me hard
Ohh, yeah!

Girl you're like a summer in the...
Is the day I got you... you can round and round my brain
And I try to body I don't wanna put you through no pain
And I'll tell you that I need a man again
Ohh

I'm selfish, I'm so me
Can't help it with the party
Won't be here forever
Come get me down

With your lips on me, smell like
With your eyes worries keys
