

# Let You Love Me

Tinashe

All of my girls came, still ain't even done shit  
Lookin' so amazing just to get attention  
So we can find a nigga who is someone worth a mention  
I said there's plenty, fishes in the sea  
But everything I've caught so far was not the one for me, no  
Not like I need it, I'm loving living free  
But when I saw you synthesized my heart 'bout skipped a beat  
You got the swag  
Baby can I meet you at the car  
Left it with the nice valet out back  
We can drive away and go so far  
So far

If this is somethin' you're tryna f\*ck with  
Tell me if you're down now, you know I'll be comin'  
If this is somethin' you're tryna f\*ck with  
Tell me if you're down, I'm down now

I like it when you come in and take up all the space in my mind  
, my mind  
I'm bouta let... gonna let, I think I'll let you love me tonight  
t  
I think I'll let you love me

2 x  
Down, down down down  
Let you love me down  
Down, down down down  
Let you love me down

Down, I'ma down down  
I let you love me down  
Down down down down down  
Down down down down...
