

# Middle Of Nowhere

Tinashe

In the desert when I heard your name  
In the desert sand where we were laying  
In the desert sun I burnt my face  
You deserted me but you left the pain  
When the sky turns into red  
I'll be out here on my own  
Don't forget I once called your heart my home  
If the wind should ever change  
Who's to say you still we be the same  
But neither will I

In the desert where I saw your smile  
In the desert sand where we were playing  
In the desert heat my tears will dry  
You deserted me when you walked away

Middle of nowhere  
(I'm livin in the)  
Middle of nowhere  
(Stuck here livin in the)  
Middle of nowhere  
Won't you come find me there

In the desert where I lost my way  
Where the wind blew sand and hit the road  
So the desert days are hard to bare  
Still the desert nights are always cold

Middle of nowhere  
(I'm livin in the)  
Middle of nowhere  
(Stuck here livin in the)  
Middle of nowhere  
Won't you come find me there  
Mmm
