

# Reverie

Tinashe

We are in a reverie  
And everything you thought you knew isn't what it seems  
Only truth...truth will set you free  
And I will never lie to you so listen close to me

We've been eating these lies, and they've been feeding us all l  
ies  
What happened to our blue skies?  
They be getting us your -- learn to love institution  
This new world has begun..  
And we spend every day worrying bout the same shit-- how am I g  
onna make it  
Every day reading from the same script -- people out here dying  
, we can change  
Come on, face it  
This ain't where we're supposed to be, this...Reverie

We are in a Reverie  
And everything you thought you knew isn't what it seems  
Only truth...thrush will set you free  
And I will never lie to you so listen close to me

Hear my heartbeat, feel I'm real and  
Sweetly singing feed my diamonds  
truth is not the same as silence  
follow me towards these horizons

We are in a Reverie  
And everything you thought you knew isn't what it seems  
only truth...truth will set you free  
And I will never lie to you so listen close to me
