

Spacetime

Tinashe

Don't you act like you don't know me, yeah
Think about me when you're lonely
You're so crazy, how you came to me
Windows tinted cause we lowkey
We ain't f**king with the police
We're so shady, you're forever

I swear it's never felt like this before
I swear it's never felt like this before
Never like this before (Never like this before)
Underneath the sapphire sky
Lost tonight a piece of mind
Caught up in the moment, I
I'm floating somewhere off in spacetime

Bottle of Ros  on cold
I like swimming when the moon's in full
Mike Phelps in it going gold
Wear, wear it out like new clothes
We ain't f**king with the games
Been let down I ain't going there again
That's why I love you when it end
One time down, you ain't going in again

Now we're together
We're f**king 'round forever
You always feel me when you laying with somebody else
You never tried it yet
Just 'cause it feels so good
And every time reminds you of the first night

Underneath the sapphire sky
Lost tonight a piece of mind
Caught up in the moment, I
I'm floating somewhere off in spacetime

Peeped it on Instagram
Careful, you're more than that
Eat your heart out today
Serve it up on a plate
I'll be your lover, babe
Late night, I'm open
You want more
You come back
You get more
I'm all for it

(How could anyone be so)
And I really do mean it
You're something I believe in
Wait all night till you see me
'Cause I see God when you eat it
Got some [?], lit
Blow it out for you, baby
I knock that ass out so crazy
How could anyone be so
Go for gold

Glitter gold
You're the champion
Lit up in the dark like whoa
Go for gold
Glitter gold
You're the champion, champion

Peeped it on Instagram
Careful, you're more than that
Eat your heart out today
Serve it up on a plate
I'll be your lover, babe
Late night, I'm open
You want more
You come back
You get more
I'm all for it

Underneath the sapphire sky
Lost tonight a piece of my mind
Caught up in the moment, I
I'm floating somewhere off in spacetime
