

## Stargazing

Tinashe

Lying down, baby on a warm summer night  
Looking out my window at the sky... sky...  
Wishing you were here now holding me  
Then the night wouldn't be so lonely, yeah.

I'm still wishing on a star  
Hoping you will feel me wherever you are  
I'm still living in a dream...  
Someday you will fall in love with me  
...Someday you will fall in love with me.  
I'm still wishing on a star, I'm still wishing on a star

I want you so bad babe, I want you so bad  
I'll never give up, I'll never give in  
I'm never gonna stop waiting

Whatever you want, I got ya, my baby  
Anything you need, I'll make it so right  
Just give me a chance & make me your lady  
Don't you wanna see what I can provide, Oh?  
Lying down, baby on a warm summer night  
Looking out my window at the sky... sky...  
Wishing you were here now holding me  
Then the night wouldn't be so lonely, yeah.

I'm still wishing on a star  
Hoping you will feel me wherever you are  
I'm still living in a dream...  
Someday you will fall in love with me  
...Someday you will fall in love with me.  
I'm still wishing on a star, I'm still wishing on a star

I'll give you the world  
Nobody better baby, No other girl  
Will give you love boy, love you long time  
Never had a drug that could get you this high...  
(Never had a drug that'll get you this high...)  
I'm still wishing on a star...
