

# Stumble

Tinashe

Your love is irresistible I wanna feel it deep inside  
Boy tell me somethin' - if you could choose which direction to go  
Would you ever choose the rocky road, the bumpy ride?  
The bumpy ride

I did, over and over again  
Sick and tired of fight fighting with him  
Days and nights of crying again  
No one knows what violence is  
Till they know what it's like to fight the same battle  
Over again, over again, with the same damn person  
And when it's over and I'm turning to leave  
He kisses me so gently  
Boy gets away from me,

He's like no  
You're too hot to be so cold gimme you bag  
And your fucking clothes, I'd be a damn fool to let this go

Just when the light is fading, just when I know it's wrong  
You do it, you do it, you do it and all my doubts are gone  
The pain is elevating I surrender my fight  
Stumble, stumble, stumble back in love with you tonight

Stumble, stumble, stumble. Like woah woah woah woah  
I'm yours, baby you're mine never let me go 'cuz I blow your fucking mind  
And ya know, and ya know, and ya know, and ya know

I waited my whole life for this so how can I deny who give me it?  
I know I can do much better than you  
But no one's belongs in my bed like you do  
There you're the truth you're the one who keeps me coming back  
Over again over again with the same damn passion  
And when it's over and I'm fallin' asleep he kisses me so gently  
Baby

Said "let's go show me how it's done-done-done down low"  
Tongue so fast, lips so slow I'd be a damn fool to let this go  
Just when the light is fading, just when I know it's wrong  
You do it, you do it, you do it and all my doubts are gone  
The pain is elevating I surrender my fight  
Stumble, stumble, stumble back in love with you tonight

Your love is irresistible I wanna feel it deep inside  
Boy tell me somethin' - if you could choose which direction to go  
Would you ever choose the rocky road, the bumpy ride?  
Stumble, stumble, stumble like woah, woah, woah, woah  
I'm yours, baby you're mine never let me go 'cuz I blow your fucking mind  
And ya know, and ya know, and ya know, and ya know  
Stumble 'til we fall down, down, down

I'm yours, baby you're mine never let you go cuz you blow my fucking mind
